

Dear FCC,

I am deeply troubled that you are allowing Sinclair Broadcasting to use our public airwaves to force its TV stations to air "Stolen Honor," a one-sided, political assassination of Presidential candidate Kerry. Your actions do not serve the public interest. In fact, your agreement to allow such political advertising to be broadcast as a "program," harms our democracy. I am very disappointed in your apparent support of big media corporations over public interest.

For the sake of our Nation, allow less consolidation through strengthening media ownership rules, rather than weaken them. For the sake of our democracy, disallow Sinclair's hour-long political advertisement. Thank you.
